MASHESHA STOVES

KIND TO PEOPLE • KIND TO ENVIRONMENT

Mashesha stove features

All stoves are made with 3 & 2 mm mild steel, painted with high heat black paint and come with a two-year guarantee. Eco-friendly fuel sources can be used.

Use 50% less wood compared to open fires.

Charcoal or any biomass briquette can also be used.

Why use a Mashesha Stove?

- Significant cost saving
- Payback on the cost of a stove is around 5 months on savings of wood
- Use 50% less wood
- Saves the environment
- Clean, hot flame with less smoke
- Cook's health & working conditions improved
- Safe to use
- Portable
