SPARK POSITIVE CHANGE

Be the start of something Bigger than yourself. Sponsor a Mashsha Stove, the gift that keeps on giving.

A Mashsha Stove uses half the wood and produces half the smoke of an open fire, providing a safer, easier, and more eco-friendly alternative that benefits communities and conserves the environment.

LESS WOOD

HIGHER HEAT

LESS SMOKE

FASTER COOKING

ONE STOVE, MANY BENEFITS.

Mashsha Stoves will help you and save you money.

Because it uses half the wood and produces half the smoke, Mashsha is safer and better than cooking on an open fire. Plus, it can cook big portions fast, making it quicker and easier to feed the whole family.

10% of every Mashsha sale goes into the pot to help access for rural communities and schools.

Mashsha's multifunctional, wood-fired stoves are a sustainable source of heat and are good for people, communities and the environment.
